### PRIMARY CARE PROCEDURES

The Library has a number of books on primary care and related procedures, as follows:

- Ambulatory Care Procedures for the Nurse Practitioner
- Atlas of Procedures in Respiratory Medicine
- Best Practices: Evidence-Based Nursing Procedures
- Clinical Procedures in Emergency Medicine
- Essential Guide to Primary Care Procedures
- Manual of Office-Based Anesthesia Procedures
- Pfenninger and Fowler's Procedures for Primary Care
- Procedures, Techniques, and Minimally Invasive Monitoring in Intensive Care Medicine

### LIBRARY SURVEY

The Library's user survey at <http://library.uthct.edu/libsurvey1.htm> (and also linked at the top of every issue of Interface and on the Library home page) is ongoing tool for you to provide feedback on Library services and resources. Please feel free to use it any time to comment on Library services and resources, make suggestions, etc. Your input is appreciated.

### PUBMED JOURNAL LINKS

When using PubMed on campus or via remote access through the Library web site, you may see one or more of three different types of icons when viewing an article's abstract.

The publisher icon (i.e. Elsevier Full Text, PubMed Central, etc.) links to one publisher of the article. Except where "free" is noted on the icon, the publisher whose link appears may or may not be the actual provider of the article that we have access to.

The UTHCT Full Text icon indicates that we have access to the full article online. Clicking it will take you to the article, but not necessarily at the site that the publisher icon takes you to.

The UTHCT Print Holdings icon indicates that we have the article in hard copy in the Library. Clicking the icon will show what volumes the Library owns.

### THANK YOU

The Library appreciates the support of the following people:

-  Dr. Peter Barnes, CPIDC
-  Helen Miner, PhD, Lake Country AHEC
-  Mary Miner, Volunteer
